

EZ After School Care

EZ After School Care software is a cost effective, easy-to-use use, cloud-based application. Ensure accuracy with automatic and reliable fees for the student check-in and check-out process. Pay online via ACH or credit card. The result is a complete program for before and after school.

After Care Check-In and Check-Out

After care administrators can easily check-in and check-out every student. If the school offers the option, parents can easily check-in and check-out their own student(s).

Benefits:

- Save parents and administrators time and effort
- Eliminate paper and automate data collection for each child
- Track morning and afternoon attendance ensuring accurate check-in / check-out times

After Care Rates

After care administrators can easily setup their own rate per child, for after care. The total charges for each student are automatically calculated, simplifying the collection process for both parents and administrators.

Benefits:

- Improve flexibility with flat or hourly rate options
- Eliminate paper and automate the rates for each child
- Easily track time attended to create a total view fees for each student

After Care Summary

After care administrators can easily view a summary of any student and their transactions.

Benefits:

- A comprehensive list of check-in and check-out times for any student.
- All payment and transaction history available
- Summary view of notes, late fees, or totals by date

After Care Summary Reports

Flexible student account funding provides cash, check, or credit card payment options. Parents can view all transactions, payments, and current balances at any time. Parents can also be automatically informed of low or negative balances.

Benefits:

- Parents have immediate access to payment and transaction history
- Automated data collection frees up staff time
- Access 24/7 from any Internet connection

								\$0.00	\$47.00

Revenue Report

Multiple reports available provide key revenue information on a daily, weekly, or monthly basis. Cash and check transactions are automatically totaled to validate bank deposits. Combined cash and credit card totals provide a total revenue report for districts and schools.

Benefits:

- Validates accurate cash totals for bank deposits
- Creates an attendance record for each student
- Provides an overall picture of the total revenue generated by the after care program
